BluEarth WINTER
V905

The confident control and supreme handling that you need all winter long.

We know that driving in winter conditions demands the best performance from your tires. The BluEarth Winter V905 will give you the confident control and supreme handling that you need all winter long.

PERFORMANCE CARS AND SUVS

The BluEarth Winter V905 is designed specifically for performance cars and SUVs.

WINTER TRACTION

Our tread pattern is engineered to perform in cold conditions and its thousands of biting edges give you an aggressive edge for maximum control on ice and snow.

WET TRACTION

The grooves of our directional tread pattern provide excellent drainage, giving you less to worry about on wet and slushy surfaces.

FUEL EFFICIENCY

A stable, lightweight design combined with our advanced tread compound means fewer trips to the pump.
