

*BluEarth**WINTER V905

PEAK PERFORMANCE ALL WINTER

THE IDEAL FUSION OF TECHNOLOGY & PERFORMANCE

The winter tire designed for performance vehicles. Introducing the BluEarth Winter V905, where advanced technologies combine to deliver confident handling and a lower rolling resistance for performance cars and SUVs throughout the winter – rain or shine, snow or slush. With an increased edge effect and all-new compound, the BluEarth Winter V905 will keep your car ready to grip the winter roads.

SILICA END-LOCKED COMPOUND

Delivers performance across winter temperatures while promoting low rolling resistance.

TRIPLE 3D SIPES

Increase block stiffness for confident handling in all conditions. Advanced construction contributes to driving stability while its lightweight design lowers fuel consumption.

ZIGZAG CIRCUMFERENTIAL GROOVES

Work in tandem with Variable Angled Lateral Grooves to improve lateral stability and help prevent sliding while cornering.
